

# GET 3 HOURS GLASS-BOTTOM

# KAYAK RENTAL WITH 2-HOUR

# RENTAL

Glass-bottom kayaking lets you see below the surface of the water in Tavernier, Key Largo and Islamorada without getting wet. The marine life that justifiably makes the Florida Keys such a great place to visit is literally just inches away.

What might you see underwater? Florida lobster, a variety of

marine turtles, grunts, snappers, sponges, nurse sharks, barracudas, conch, rays, angelfish, parrotfish, sea fans, jellyfish, to name a few?

Rent a glass-bottom kayak from us and cruise through the amazing mangrove system in and around Tavernier, Islamorada and Key Largo. Pack a cooler and swing by our cute little island to enjoy a picnic and just relax.

If you want to work off those lunch calories, feel free to swim or snorkel. And if you would rather rent a paddle board, we've got you covered!

Even more spectacular is a night LED light eco-tour. Who knows what you might see?

We are centrally located in Tavernier at MM 90; as you head south for Key West, we're on the left just over the Tavernier Creek Bridge.

Our special deal: Rent a kayak for 2 hours and get the 3rd hour free!
